

I am writing in response to the FCC's consideration of expanding the new broadcast service known as Low Power FM. My understanding of this proposal is that the current K-LOVE signal could be replaced with an LPFM which may not have the same family-friendly programming I and my family and friends have come to count on. K-LOVE supports wholesome values and has a positive and encouraging impact on my family. My 10 yr. old son knows and sings nearly all of the songs that K-LOVE plays. I know that to lose this programming would be such a great loss to our daily lives...we have been financial supporters of K-LOVE for about 5 yrs. now and it is the best money we spend every month. I urge you to leave K-LOVE on the air as it is now and I will be praying to that end.

Thank you for your consideration,

Eileen White and Family
